RECORDING FORM**  
RA 029A Omicron Variant Full Opening of School v5  
17<sup>th</sup> January 2021

Location or address <b>OVERCHURCH INFANT SCHOOL</b>	Date assessment Undertaken: <b>17 / 01 / 21</b>	Assessment undertaken by: <b>Jeanne Fairbrother and Steve Elliott</b>
Activity or situation <b>RA029A Omicron Variant Full Opening of School v5</b>	Review date: as required	Signature: <i>S. Elliott</i>

**Background Information**

The Prime Minister announced on 27 November the temporary introduction of new measures as a result of the Omicron variant and on 8th December that Plan B, set out in the autumn and winter plan 2021, was being enacted. As a result, these measures are reflected in this and the accompanying updated RA 029B Contingency Plan COVID 19- Plan B v6 2<sup>nd</sup> January 2022. This advice remains subject to change as the situation develops.

**School Opening**

DfE guidance for schools during the coronavirus COVID 19 pandemic has been that schools are required to have a full school opening risk assessment which is regularly reviewed and updated, treating them as 'living documents', as the circumstances in your school and the public health advice changes. This includes having active arrangements in place to monitor whether the controls are effective and working as planned.

This risk assessment applies to:

- primary schools
- secondary schools (including sixth forms)
- special schools, special post-16 providers and alternative provision
- 16 to 19 academies
- infant, junior, middle, upper schools

**Guidance**

This risk assessment has regard to all relevant guidance and legislation including, but not limited to, the following:

The Health Protection (Notification) Regulations 2010

The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013

Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities'

NEW DfE (2021) 'Schools COVID-19 operational guidance'

UPDATED DfE (2021) 'Actions for early years and childcare settings during the coronavirus (COVID-19) outbreak'

DfE (2021) 'Face coverings in education'

UPDATED 'Actions for out of school settings'

**Important**

The DfE use the terms '**must**' and '**should**' throughout their guidance. The term '**must**' for when the person in question is legally required to do something and '**should**' when the advice set out should be followed unless there is a good reason not to.

1) Hazard / Activity	2) Who can be harmed and how?	3) What controls exist to reduce the risk? Have you followed the hierarchy of controls (eliminate, substitute etc)	Risk Score Consequence X Likelihood	4) Any further action; This should be included in the action plan below (5)

This happens where people are doing activities which generate more droplets as they breathe heavily, such as singing, dancing, exercising, or raising their voices. The risk is greatest where these factors overlap, for example in crowded indoor spaces where people are raising their voices. In situations where</i></p>	<p>3X2=6</p>

Risk Rating	Action Required
17 - 25	<b>Unacceptable</b> – stop activity and make immediate improvements
10 – 16	<b>Tolerable</b> – but look to improve within specified timescale
5 – 9	<b>Adequate</b> – but look to improve at review
1 – 4	<b>Acceptable</b> – no further action but ensure controls are maintained

**Likelihood:**

- 5 – Very likely
- 4 – Likely
- 3 – Fairly likely
- 2 – Unlikely
- 1 – Very unlikely

**Consequence:**

- 5 – Catastrophic
- 4 – Major
- 3 – Moderate
- 2 – Minor
- 1 – Insignificant

(1) List hazards **something with the potential to cause harm** here  
 (2) List groups of people who are especially at risk from the significant hazards which you have identified  
 (3) List existing controls here or note where the information may be found. Then try to quantify the level of risk **the likelihood of harm arising** that remains when the existing controls are in place based on the number of persons affected, how often they are exposed to the hazard and the severity of any consequence. Use this column to list the controls that you might take and develop all or some of that list into a workable action plan. Have regard for the level of risk, the cost of any action and the benefit you expect to gain. Agree the action plan with your team leader and make a note of it overleaf. If it is agreed that no further action is to be taken this too should be noted.
