

What's the app about?

This first version of the app is aimed at Key Stage 1 pupils (ie. age 5–6 years). Individual one-minute tasks focus on adding and subtracting — and on 'Subitising', the skill of instantly recognising the number of items in a group without counting. Multiplication and division topics are also now available!

How do we use it?

Children can choose any topic they want to try. They then answer a unique series of questions (so it's a different set of questions every time). If they're struggling with a question, a 'Hint' button will give a helpful clue by showing the question in a different but familiar way.

When the one minute's up, they'll see a feedback screen telling them how they've done.

Check out these 7 top reasons for using 1-minute maths!

1. Excellent practice — and no distractions.
2. A clear, intuitive process that children pick up straight away.
3. No login or internet access needed. Just download and play.
4. Enjoyable and motivating... How many can they get correct in one minute?
5. Helpful hints match those used in class.
6. Brilliant for building number fluency and confidence.
7. It's **FREE!**

Web version

1-minute maths is now available on desktop!

Premium subscribers can access through 'My account', then 'My digital tools'.

If you're a teacher, share the web version with children in your class using a unique three-word code.

If you're a parent, share the unique three-word code with your child, or speak to their teacher about getting access.
